**The Nature of the Trans-Canada Highway**

To improve safety for people and wildlife, the Trans-Canada Highway is being upgraded in stages through Banff National Park. The most recent upgrade from a two-lane to four-lane divided highway is underway east of Lake Louise.

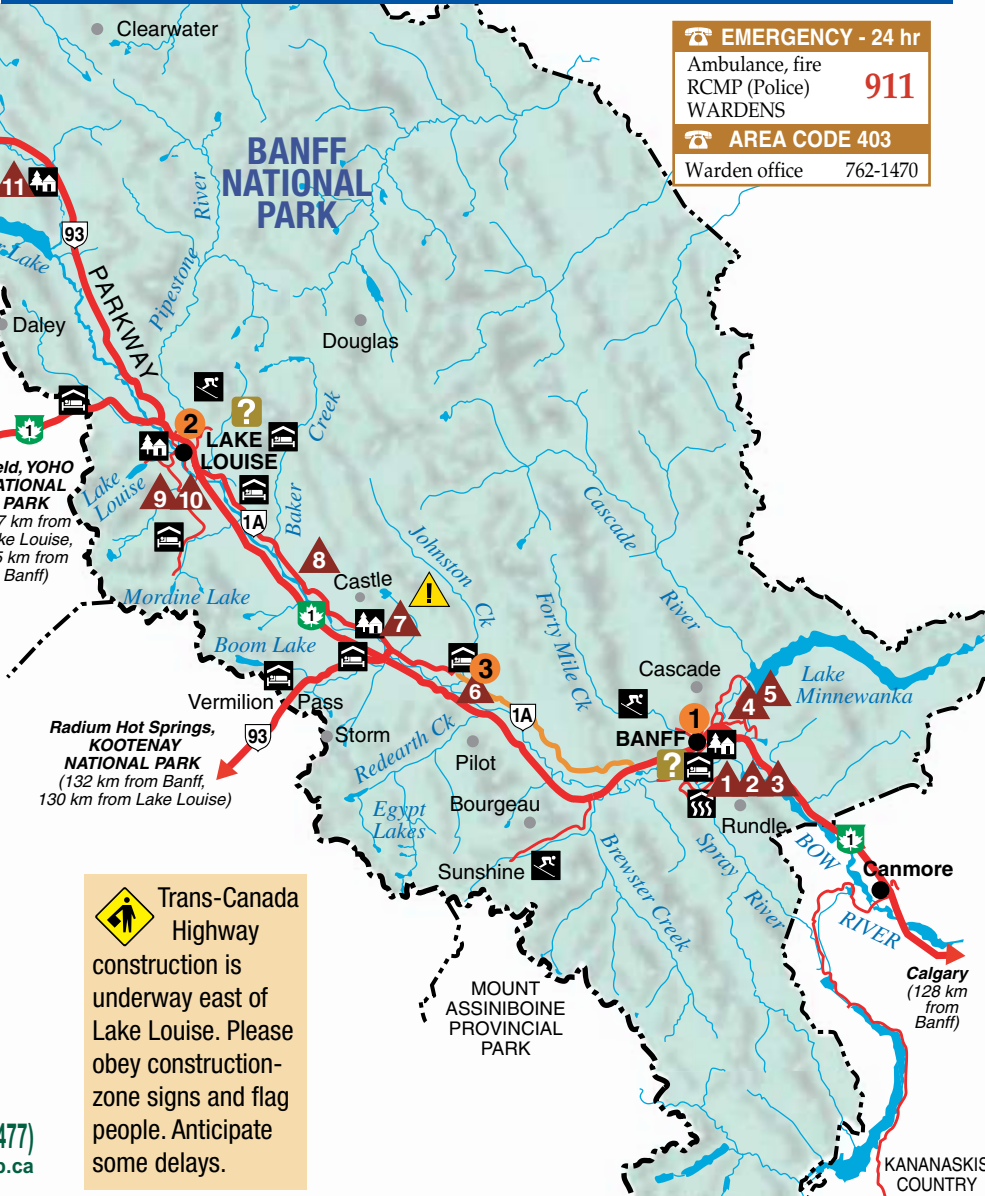

There is no other location in the world with as many and different types of wildlife crossings, or with the largest data set on wildlife use of crossings.

For details on highway twinning and wildlife crossings in the park: [www.pc.gc.ca/transcanada](http://www.pc.gc.ca/transcanada)
