Kazakhstan

- International boundary
- Oblysy boundary
- National capital
- Oblysy capital
- Railroad
- Road

An oblysy is named only when its name differs from that of its administrative center.

The cities of Almaty, Astana, and Bayqongyr have status equal to that of an oblysy.

**Bayqongyr and the Baykonur space launch facilities are leased to Russia until 2015.*

Boundary representation is not necessarily authoritative.
