

Structurally Deficient Bridges on the National Highway System New Jersey - Congressional District 06

Consult your state DOT for the most up-to-date status of bridges.

Area of Detail

Note: The bridges displayed on this map represent the results of a combined BTS/FHWA effort to geocode bridges from the FHWA's National Bridge Inventory (NBI). With the exception of Kentucky and Pennsylvania, whose most current data is 2006, all data is from the 2007 NBI. Of the 175 structurally deficient NHS bridges in New Jersey, 8 could not be geolocated because of insufficient data. Structurally deficient bridges are not necessarily unsafe; all public road bridges receive regular safety inspections. The bridges listed were categorized as structurally deficient at the time the maps were developed.

Bridge Label	Structure ID	Bridge Description	Location Description
1	1213151	NJ RT 18	1.95 MILES NORTH OF NJ TP
2	1230164	I-287 NB	0.65 MIS OF 501 JCT
3	1230152	I-287 SB	AT US 1 JUNCTION
4	1230151	I-287 NB	AT US 1 JUNCTION
5	1218154	NJ 27-MIDDLESEX AV	0.3 MILE NE OF GROVE ST
